

# Lumotech Supplier Day

18 February 2013

SUPPLIER DAY

## Agenda

- Welcome
- APDP Overview
- AutoEDI Supplier Portal Training:
  - APDP
  - Releases
- Lumotech Supplier Portal
  - Rating System
  - Web Interface
- Conclusion
- Finger Lunch

LUMOTECH 

## APDP Overview

- Replacement of MIDP (1995 -2012)
- Effective 2013 through to 2020
- Review scheduled for mid-2014

## APDP Acromyns

- APDP Automotive Production and Development Programme
- EPC Eligible Production Certificate
- PI Production Incentive
- PRCC Production Rebate Credit Certificate
- SMD Standard Materials Declaration
- SVA Standard Value Added
- (M)VA (Manufactured) Value Addition

## APDP Objectives

- Compliance with WTO Regulations
- Significantly grow light motor vehicle production volumes in RSA (1.2mill)
- Increase local Component Manufacturers value add in the supply chain
- Creation of additional employment opportunities across the SA automotive value chain.

## MIDP vs APDP

MIDP	APDP
Export based incentive – benefits calculated on local content used	Market neutral based incentive – benefits based on Value Addition
Claim limited to qualifying exports only	Suppliers can claim incentives on their own exported and replacement parts
DA190's and IRCC's	C1's, SMD's and PRCC's

## Standard Material Declaration

STANDARD MATERIALS	NON-STANDARD MATERIALS
Aluminium	Local Materials
Auto Flat Glass	Imported Materials
Brass	Local Components
Leather	Imported Components
PGM	
Stainless Steel	
Steel	

## Production Incentive

- Claimed by last point of manufacture
- Claim only once payment has been received
- Value Addition (VA) = Selling price – (75% x Standard Materials) – Non Standard Materials.
- $PI = VA \times PI \text{ Factor (55} \rightarrow \text{50\%)}$
- $PRCC = PI \times 20\%$

SUPPLIER DAY

# Form C1

- Used for declaration of Foreign Currency Usage
- Replaces current DA190 (NB: No Imported Materials column)
- Must be based on FOB value
